Summer Institute for Comprehensive Systematic Review
Examining Quantitative and Qualitative Evidence in Health Care

July 13-17, 2015
Rutgers Health Sciences Campus at Newark, NJ
Registration deadline: June 26, 2015

As the demand for health care continues to grow, so does the need for easily accessible, up-to-date evidence on best practices in health care. Systematic reviews are an important vehicle for addressing this need. Participants in the Summer Institute will gain a thorough understanding of the process and tools needed to undertake this important form of research and will work on developing an actual proposal.

Specialized Instruction. Small Groups.

Classes will be held in Rutgers' high fidelity classrooms and computer labs. You will gain hands-on instruction and practice in using three specialized software programs:

- JBI-MAStARI (Meta Analysis of Statistics, Assessment and Review Instrument) for quantitative data;
- JBI-QARI (Qualitative Assessment and Review Instrument) for qualitative data; and
- JBI CReMS (Comprehensive Review Management Software)

The 5-Day Proposal Development Track  
**July 13-17, 2015**  
9:00 a.m. - 4:00 p.m. daily  
This track is for individuals who are new to the comprehensive systematic review process and who wish to learn about the review and synthesis of both quantitative and qualitative evidence. Participants will gain a thorough understanding of the process and tools needed to undertake this important form of research.  
- during the session, complete a structured plan to create your own systematic review proposal.  
- 28 contact hours provided with JBI certification upon successful completion of chosen course or module of study.  
- Joanna Briggs Institute systematic reviewer certification is available for an additional fee.  
- Day 5 is reserved primarily for completion of a systematic review proposal under guidance from Institute faculty.

The 3-Day Qualitative Track  
**July 13-15, 2015**  
9:00 a.m. - 4:00 p.m. daily  

The 3-Day Quantitative Track  
**July 13, 16 & 17, 2015**  
9:00 a.m. - 4:00 p.m. daily  

The 3-day sessions are for individuals who are interested only the review and synthesis of either quantitative evidence or qualitative evidence (but not both). This option is available for those who wish to learn the skills for reviewing only one of these two types of evidence.

1-Day Track  
**July 13, 2015**  
9:00 a.m. - 4:00 p.m.  
This track is for individuals who are interested only in learning about the basics of systematic reviews and evidence synthesis (i.e. designing a focused clinical question, searching the literature, developing a proposal). The review and synthesis of quantitative and qualitative evidence are not covered in this track.
