

Post-Baccalaureate DNP Dual Women's Health/Nurse Midwifery

The Dual Women's Health/Nurse Midwifery Practitioner Doctor of Nursing Practice (DNP) student receives advanced preparation in the assessment and management of women's health issues. The Dual Women's Health/Nurse Midwifery practitioner provides primary and reproductive care to women across the life span. In addition, the Nurse Midwife provides holistic health care through the labor and birth process as well as in the postpartum period to essentially healthy women and their newborns. The dual program emphasizes a wellness paradigm and implements a scientific, evidence-based rationale for practice within diverse care delivery settings.

Graduates from the Women's Health/Nurse Midwifery dual program are awarded a DNP degree and are prepared for full-scope practice as a Women's Health Nurse Practitioner and a Certified Nurse Midwife.
