

DNP Programs

Post-Bachelor's DNP

For nurses with a BS in Nursing seeking an early start to their doctorate in advanced nursing practice.

- 12 specialty areas
- 3, 4, or 5-year plans of study
- In-person program with online course options
- Newark campus

RANKED
#6

(US News and World Report, 2024)

140+

Doctorally prepared nurse practitioners graduate each year

Post-Master's DNP

For master's-prepared nurses who want to obtain a DNP specialization in a different area of study. We offer two program options:

Nursing Leadership

Designed for master's prepared nurses, this program equips students to effectively lead health care organizations toward better outcomes. The program can be pursued as a 3-year or 4-year plan of study, and features online courses, as well as in-person classes held at our Newark campus.

Practice (Executive Weekend Model)

This practice-focused DNP is designed for working, master's-prepared nurses and built to accommodate a full-time work schedule. Students meet in person, on our Newark campus, over one long weekend per month.

Post-Master's Certificates

For master's-prepared nurses who want to achieve specialty certification in a particular area of study.

- 7 certificate options
- Mix of online and in-person classes
- Newark campus
- Informatics offered online with in-person practicum component
