

Enrollment, Attrition, Graduation Rates

AMCB Board Certification Rates

The Midwifery Programs at Rutgers School of Nursing presents their programmatic outcomes data below.

Part-Time BSN-DNP Students

Matriculation year	Number of part-time students matriculating in cohort A	Goal for on-time graduation	Number who left program or were dismissed	Number who graduated on-time B	Number who graduated, not on-time C	On-time graduation rate B/A	Final graduation rate (B+C)/A
2018	13	80%	2	11	0	85%	85%
2019	11	80%	5	6	0	54%	54%
2020	7	80%	0	7	0	100%	100%

Part-Time Post Master's Certificate Students

Matriculation year	Number of part-time students matriculating in cohort A	Goal for on-time graduation	Number who left program or were dismissed	Number who graduated on-time B	Number who graduated, not on-time C	On-time graduation rate B/A	Final graduation rate (B+C)/A
2018	0	80%	0	0	0	N/A	N/A
2019	0	80%	0	0	0	N/A	N/A
2020	1	80%	0	1	0	100%	100%

Note: Final graduation rates are based on the SON Division of Advanced Nursing Practice policies for on time graduation and total length of time in the doctoral program (4 or 5 years) and post master's certificate program (2 years). Where data is not available students in these cohorts are still enrolled and working towards completion. Data will be posted as is available. Due to the Covid-19 pandemic, students in all programs experienced significant interruptions that have resulted in extended time for program completion or program transfer or attrition. This was especially impactful for the cohort matriculating in 2019.

The Midwifery Programs at Rutgers School of Nursing presents their ACMB reported pass rates below.

Graduation year	Number of graduates	Graduates with AMCB certification within one year	% Passed within 1 year
2021	11	9	82%
2022	10	9	90%
2023*	11	9	82%

*One student in this graduating class opted not to take the certification examination; 9/10 who took the examination were certified within one year of graduation
