

Post-Baccalaureate DNP Women’s Health/Gender-Related Nurse Practitioner Program

The Post-Baccalaureate Doctor of Nursing Practice (DNP) Women’s Health/Gender-Related Nurse Practitioner Program is based at the Rutgers Health Campus in Newark, NJ. The Women’s Health/Gender-Related Nurse Practitioner provides a combination of theory and practicum experiences that prepares graduates to be independent providers of full-scope health care within this specialty.

Role and Qualifications: A doctorally-prepared (DNP) Women’s Health/Gender-Related Nurse Practitioner has earned a graduate nursing degree and is prepared to provide women’s health and gender-related care to diverse populations from adolescence throughout the life span. Distinguished by doctoral preparation, the Women’s Health Nurse Practitioner graduate supports both clinical practice and leadership in women’s health and gender-related health and healthcare. Upon successful program completion, graduates will have met core competencies and be eligible for national board certification by the National Certification Corporation (NCC) to practice as a Women’s Health Nurse Practitioner.

Scope of Practice: As a Women’s Health/Gender-Related Nurse Practitioner, care encompasses a full range of primary and specialty health care services. They provide independent gynecological, sexual, and reproductive (including men’s health), family planning, preconception, prenatal, postpartum, and specialty care from adolescence through the lifespan. They are practice leaders, prepared to apply and translate evidence-based research to improve health, healthcare and systems.
