

5th Annual Winter Institute for Scoping Reviews

January 9, 2026 - 9am-4pm

Registration deadline: December 22, 2025

The Winter Institute aims to prepare researchers and knowledge professionals to meet the growing need for scoping reviews of the literature that can inform policy and practice.

Specialized Instruction. Small Groups.

The session is held via videoconferencing (Zoom) with learning resources available on the Rutgers Canvas Learning Platform. You will gain hands-on instruction and practice in using the JBI specialized software program called SUMARI (the System for the Unified Management, Assessment and Review of Information), which is designed to assist researchers and practitioners to conduct 10 different types of systematic review, including reviews of effectiveness, qualitative research, economic evaluations, prevalence/incidence, aetiology/risk, mixed methods, umbrella/overviews, text/opinion, diagnostic test accuracy and scoping reviews. More information on this comprehensive tool is available at jbisumari.org

Lead Faculty: Yuri T. Jadotte, MD, PhD, MPH, FACPM

Lead Faculty

Yuri T. Jadotte, MD, PhD, MPH is a professor at Rutgers School of Nursing (Rutgers SON) and the deputy director of the JBI Population Health Evidence Consortium.

Yuri T. Jadotte
MD, PhD, MPH, FACPM

About The JBI Population Health Evidence Consortium

We have been hosting Institutes on systematic review since 2011.

We offer a range of services including custom-designed training programs and consultations on systematic review protocol, full report development, meta-analysis, subgroup analysis, meta-regression, and meta-synthesis.

The JBI Population Health Evidence Consortium (JBI P-HEC, formerly known as the Northeast Institute for Evidence Synthesis and Translation or NEST) is a JBI center dedicated to the pursuit of population health improvements through the creation and dissemination of sound evidence for practice and policy-making.
