

Job Title: Private Duty Nurse (RN/LPN) for an Adult with Traumatic Brain Injury (TBI) in Bloomsbury, NJ.

Position Overview

We are seeking a dedicated and compassionate Private Duty Nurse to provide one-on-one care for a 25-year-old adult with a TBI in a home setting (daytime Mon-Fri 8 hrs per day).

We are seeking a nurse who combines strong clinical skills with a positive, engaging personality. This is a unique opportunity to learn about advances in neurological care and rehabilitation, and to allow time for meaningful one-on-one patient interaction, a sharp contrast from the typical chaos of hospital nursing. More than all, you will make a genuine difference in a young man's life while working closely with a caring and appreciative family.

Jacob is a sweet young man with a wonderful smile and no behavioral challenges. Everyone who meets him quickly falls in love with him. He is quadriplegic, and our family is actively involved in his care. Jacob spends most of his time indoors watching TV or reading, or doing low-key outdoor activities (gardening, walking) at our 21-acre farm home in Franklin Township, Warren County. Jacob's nurse usually hangs out near him when not performing any nursing-related duties. We are attaching a recent photo because, as they say, a picture is worth a thousand words.

Compensation is competitive and I will try my best to have it exceed the average rate for similar positions in NJ. We have been informed by Bayada and other staffing agencies that qualified candidates can be onboarded quickly.

Key Responsibilities

- Provide skilled, individualized and quality nursing care:
 - Highly regular tasks for a straightforward & easy-to-follow care routine vs. unpredictable & chaotic hospital environment
 - Monitor vital signs (neurological and other), feeding tube support, medication management
 - Scheduled daily living tasks, including bathing, dressing, grooming, toileting, and mobility, while preserving dignity
- Assist with maintaining a clean and safe patient environment, including tasks directly related to patient care such as changing bed linens, supporting the patient's laundry, and ensuring personal items and care areas are clean and organized.
- Provide encouragement, companionship, and a stable, reassuring presence. Foster a positive and motivating environment

Personal Attributes

- Compassionate, patient, and empathetic
- Positive, upbeat, and energetic personality
- Strong interpersonal and communication skills
- Reliable, responsible, and adaptable
- Passion for improving the quality of life for individuals with complex needs

Thank you for considering our need and willingness to support us.

Kind regards Jaya & George 908-731-2423
